LB 619, 120, 253, 469,  
447

DeCamp is going to propose along with Senator Carsten is that we actually go a little further and if we go a little further and if we find that it is basically acceptable to the affected communities, we are in the... we have the possibility of raising a lot more revenue. But nobody yet knows precisely how much revenue would be raised. But what I want you to do is to keep an open mind on this subject so that on Select File we can talk about going a little further.
